

# Communion Measurement Guide

## Tips

\*All measurements are taken by Centimeter.

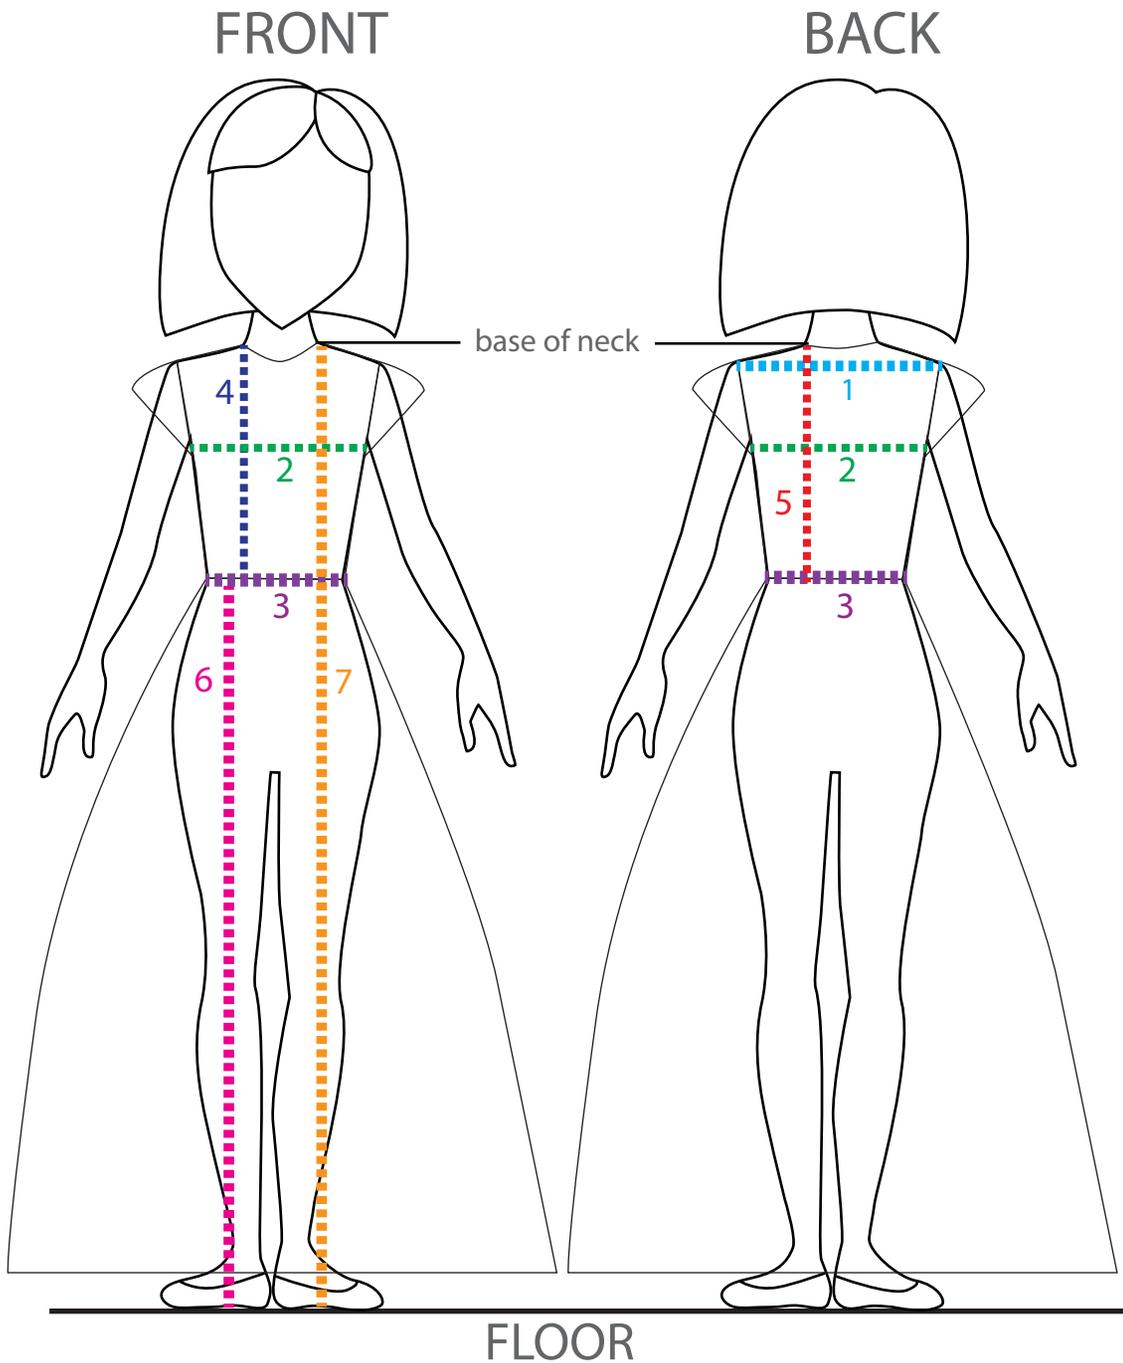

\*Take measurements with the intended shoes.

\*The "base of neck" is the area where the shoulder meets the neck.

\*The back torso is typically more curved (indented) than the front. Make sure to measure straight down on the curve.

\*When measuring the torso, make sure to measure straight down. Do not measure in an angle.

\*The waist is typically the smallest point of the torso.
